The credit of the city has suffered much, and continues to be injuriously affected by the non-payment of interest by several of the railroad companies, to whom the city, in years past, loaned its credit to aid in the con-

Your attention was early called to this fact, and resulted in your memorial to the Legislaand resulted in your memorial to the hegisla-ture for the passage of a law entitled, "An act to protect certain counties, cities, towns and villages," approved April 2d, 1880. If this law be energetically enforced, it is be-lieved, that the defaulting companies will be compelled to pay the interest on the class of bonds referred to. During the year I have given much time and attention to devise some plan by which the after might obtain an honplan by which the city might obtain an hon-orable release from its liabilities on the city bonds, issued to railroad companies. From these efforts, it is hoped, some good will resuit to the city, and the companies be eithe compailed to pay the interest, and ultimatel the principal of the bonds, or that the holders of the bonds may be induced to take securities held by the city from the railroad com-panies, and release the city from her liabili

The original motion of Hierona and a spur of the previous questions; that the most pre penses of government, and pay the interest upon the municipal debt, and the outstand-ing city orders. It is our duty to weigh well these difficulties, and at all times to be gov-

erned by the necessities in which we are placed.
The rapid growth of our city, the prosper-ity which flowed in upon us in years which have passed, engendered a spirit of speculation and extravagance hard to counteract.— You will be importuned to engage in new en-terprises which may be thought beneficial, involving public expenditures; to confinue works already commenced, to give place and employment to friends; to all such ap peals necessity compels us to turn a deaf ear. and to adhere with firmness to what we know to be our duty. It should be remembered that there is a limit to taxation, beyond which property becomes valueless; and that all taxes in the end, come from the laboring classes; that the laboring man hears alone the burdens of government. The expenses in almost every department of city govern-ment can, and should be reduced. I have not, as yet, had an opportunity of see-ing a detailed statement of the receipts or expenditures for the last year, but from the information which I have, I have no doubt the expenses for printing, for bridges, for the Fire Department, can, and should be greatly reduced. Those who have placed us here expect a thorough investigation into the past management of our city allairs; that justice may be done to those who have been un justly accused that the frauds and pecula-tions, if any have been committed, may be exposed and punished, and the proper meas-

that the extravagance of the past may be rebuked and avoided.

MESSES. EDITORS:-- I notice in the "commercial column's of your paper of this motuing, some remarks in reference to the withand warrants and designate them from the spurious ones.

Several weeks since, a committee was raised in the Board of Alderman to examine into the affairs of the city in past years, but up to this time, I regret to say, that committee have made no report, nor, as I can learn, even commenced it is labors.

I trust that the investigations commenced this year, may be taken up by the incoming administration, and a thorough and careful examination be made into the affairs of every department of the city government, from the adoption of the Charler in 1852, to the present time; making, in such investigations, the

It such a cause, is questionable, to say the wrongs have been committed, let them be ferexactly. But he is greatly in error, in supposing that those gentlemen acted from any such cause as the one assigned. The locality of the room was a matter of very little import- Paid. ance, and with the exception of the manner thankless position, with inter or no positive power or supervision, under our Charter and laws, over the separate departments of the city government; still, in public opinion, he is held responsible, in a great degree, not ing decided, by two votes, upon this subject, of leasing, was settled last week, I believe, to that it was its wish to remain in the quarters occupied for the past year; and as evidence whose offices and duties are quite independent that this was not the point at issue, some of him. For this reason I hait with gladaness the expiration of my official term.

What then was the real cause of action

We conceive it to be this. Certain parties in

The great success of Sands' Pale Cream Ale, is entirely concluded coolly and deliberately, that the best course to pursue, in order to preserve the character of our grain market, would be to exercise their indisputable right to witheredit gene; our revenues in a measure cut off draw, and establish a Board, wherein these engaged in the wheat trade would have the management, mainly, of that particular branch of our commerce. Whether they have acted wisely remains to be seen. That States.

THE WEEKLY SENTINEL

Six Months for Less than Cost of Paper and Printing!!!

READ AND BE CONVINCED!

The approaching campaign is to be a memorable one. The battle will be fought acalously between the friends and the enemies of Freedom, and the ground contested inch by inch. In view of these facts, it is apparent that the dissemination of Republican papers and documents becomes of vast and vital importance. In order to furnish the WALKLY SESTIREL to the people of the North-West, during the Campaign of 1860, we have concluded to offer the paper, FROM THE 16TH OF MAY TO THE 16TH OF NOVEMsak, at the following unprecedented liberal

Every Campaign subscriber will rec-ive the Proceedings of the National Convention, to be held in May, and full returns of the election in November.

We need not urge upon our Republican friends the importance of placing this sheet is the hands of all. Let No vothe, or family in the State, be without the SENTINEL during the Campaign. Wheresoever facts are read, and the people have access to truth, Republicanism prevails.

when the Wisconsin adds, as if speaking by authority, that Chief Justice Dixon will declare the form mortgages valid, we are moved to inquire how it ascertained that fact. That others think very differently is quite clear. The Free Democrat says:

The Free Democrat says:

A democratic lawyer of this city, who has several radroad farm mortgagoes, wrote letters into the country to the mortgagoes, wrote letters into the country to the farm mortgagoes, wrote letters into the country to the farm mortgagoes, wrote letters into the country to the farm mortgagoes, assuring them that Droon was call right on that question. There is no mastake about this. We have the mane of the attorney, and the authority of those who saw one of his letters. Now we think it is incumbed on the Wisconson and this democratic attorney to explain. Is the Bisconsin time gassing, or does it know whereof it afferms: Did this attorney simply design to decide the jurgies, or did he know whereof he affirmed? As it states, these parties must either contess themselves will deceivers, or they must outrageously impeach the character of Judge Dixon. Which will they do?

The News, which supported Dixon zeal—

The News, which supported Dixon zealously and has no mind to share with the Wesconsin the glory of electing him, repudiates the idea that "the family paper" is competent to speak of Dixox's opinions and

Saye:

Whether Judge floan had committed himself on this subject, as the editor of the Wiscomein alleges, or but, we do not know, but we know that the Chief Justice, while Chreuit Judge, gave also opinion most district, while Chreuit Judge, gave also opinion most district, and the subject of the mortgages. We know, also, fall well that the farm mortgages. We know, also, fall well that the farm mortgages would need the question one way or the other, but with a full reliance on his intelligence, legal ability and little for the fall of Justice he would well that on his intelligence, legal ability and little for the fall of the will be confidence in the thirty Justice he would understand the form of the Wall arrect brokers, in those administratory transparent, and is simply disgusting.

To, thirt sectionory the Janesville Gazette.

To this testimony the Janesville Gazette wide the following:

A larger of this city also wrot: letters to Green carly asserting that hixon would detare the farm mortgages wild, and that he was the man for the farm mortgage at to support. We have his name and have no significant of the fact.

Considering what was said about Judge Scoan's being committed to this, or that deby the News, Wisconsin and other Democratorgans, on that ground, these revelations in regard to Judge Dixon's preconceived opinious about Farm Mortgages; the assur-Ences given by various "Democratic lawyers" that he would declare the mortgages invalid: and the fact that, upon the strength of these assurances, the Farm Mortgagors voted for bixon, are all so many significant comments upon the honesty and consistency of the Democratic outcries against Judge Shoan. While accusing Judge SLOAN of having preniged an important matter likely to come before him, and opposing him bitterly on that ground, they were busity circulating all over the State, among the Farm Mortgagors, assurances that Judge Dixon was all right on that question and therefore the man whom they ought to support. And the News now tells us that they did so support him.

The Rhode Island Election.

The Schrönel, Free Bemocraf and Wisconsin have tot, as yet mustered sufficient courage to tell their readers the troth in regard to the Rhode Island electron. They have asserted that Prague, the successful and date, was "a Union candidate," which is not tree. Mr. Sprague was the regular Democratic nominee,

It is the News, and not the SENTIMEL, that presistently misrepresents the facts in regard to the Khode Island election. Mr. SPRAGUE, the successful candidate, was first put in nomination by a body of Republican delegates who seceled from the Convention
which nominated Mr. Padetrord. Then
he was taken up by the "American Republicanz"; next by the "Union Men," and last
of all by the Democrats; who, being too

Mr. Spragur, when bounnated, came out in a card, declaring to look after it, and accordingly, he sailed on that he had always been a Republican and that he should vote for the nominee of the

There is a feeling here that was so apily expressed by one of our delegation the other day, that I must try to quote it: "Tov. Seward," said he, "was considered as the representative of the ultra, and Mr. Bates of the conservative Republicans, but since the one made his speech and the other wrote his letter, they have in a great measure changed positions—Seward has become conservative, and Bates very decided, but with different results. Bates has lost the conditence of the conservatives, and gained nothing from the other side, while Seward has gained their adheston without losing the conditence of the ultraint." Thus it even out to sing way himself.

BUCHANAN AND BRECKENRIDGE .-- The Rochester Union says the truth for the folowing anecdote is satisfactorily vouched for: A few days since several Virginia politiciaus called at the White House, to pay their respects to the President, and in the course of the conversation Mr. B. related the following with great glee: "When Vice-President BEECKENDINGS visited Kentucky last December, for the purpose of making his speech refore the Legislature, he met General Leadiz COMBS, the old Clay leader of the Whig Party, of that State, and addressed him as follows: 'Gen. Ever since the Judicial election, there has been a fired dispute between the News and two Wisconsin, well satisfied to consider meaning of the Lact that its powerful influence socured Dixon's election, has proceeded to lay down the platform which it expects the Chief Justice to occupy. It assures us, confidentially, that he is "opposed to anti-rentian, repudiation and nullification," all of which the can very readily believe, inasmuch as nullifiers, repudiations and anti-renters are "i-w and far between" in Wisconsin. ----A WINDFALL FOR SURVEYOR HART .-- Mr. Surveyor Hart has fallen heir to an estate un-der the following romantic of committances:— Years ago, when in Paris, a lovely Jewess became enamored of him, but he did not return the passion. When he came back to New York, he still remained the object of her tender recollections, which were shown by her sending him, on the several annual feast days of her ancient faith, valuable presents—sweet mementoes which only the delicate taste of woman knows how to summen up. Three Princes Among Us.—We are shortly to be honored by the presence of three full-blooded live Princes among us—the Prince of Wales, who will leave Liverpool to Canada, on the 10th of June, and who will extend his visit to the United States; Simme, Prince of Boosen, and Mooragaki. Prince of Awadaki—the two latter mentioned being aclors of Japanese royalty, who are to come with the Japanese Embassy. The visit of three Princes to the United States at once, will be quite an event, and will, no doubt, create a sensation in society.

When they got him to the door, the sister stopped her resistance and screamed to the top of her voice and alarmed the neighbors, a score of whom were soon on the spot. By the time they got there Sanborn had been dragged into the middle of the street, without his hat and in his stocking feet. Sanborn, at this point, held up his manacled hands over his head, and shaking them said: "Citizens, look and see what the United States Senate have done for me." His remark made a great sensation among the crowd, and matters began to look squally for the U. S. officers. In the meantime a mes-

She then jumped into the carriage to prevent her brother being put into it, but she was taken out with more force than politeness, having her clothes torn in the struggle.

While the writ of habeas corpus was being prepared, as stated above, the crowd stood round the officers and gave rent to their feelings in hisses, grouns, &c., calls more emphatic than complimentary, such as "these are the men who struck down Charles Sumder, when he was immediately seized by the

In the meantime, some of the citizens may be applied to Justice Ball for a warrant to arrest the United States officers for assault and battery. The warrant was issued, but before it could be got ready to be served, the officers took to their carriage and field, and were pursued to the limits of the town of Lexington, but their pursuers were unable to overtake

The Ghost in the Astor Library.

The piquant letter writer in the New Orleans Picagune is responsible for this bit of gossip:

The "Astor Library Ghost Story" is one of the most talked of and laughed at topics of the day. My own theory is, that we all see ghosts in dreams, and that the venerable Dr. Cogswell was dreaming when he saw the late Dr. Sands standing before the "Demondology Alcove," in the Library. I know a most intelligent and accomplished lady, who has seldom slept for the last seven years without being visited by a phantom in the shape of a man, handsome and more agreeable than any other gentleman she had ever seen with her waking eyes; and although a first she was trightened at his advances, she now finds in these delightful nightly interviews the chief charm of life. This dream phantom makes love like an angel. The lady is finely organized and of a highly nervous temperament, and the excitement of this ghostly intercourse is exhausting her rous temperament, and the excitement of this ghostly intercourse is exhausting her physical life. Every day her cheeks grow paler and thinner, and her eyes brighter and paler and thinner, and her eyes brighter and larger. I presume this strange experience, which was confided to me as a protound and precious secret, with many minute and most interesting particulars, is by no means peculiar to my fair friend.

Doubtless this publication of the fact will develop many similar instances, increase the

develop many similar instances, just as the publication of Mrs. Crowe's and Robert Dala Owen's Ghost Stories have called forth thousands more of the same sort. In this sad world of trouble and vexation of spirit, I doubt there are but few of us unsatisfied mor-tals who have not found our happiest mo-ments in dreams—in sacred visits from the dead—in bitsaful meetings with the living.

"And even in a dresm to be blest, Is so sweet that I ask for no more." Is so sweet that I ask for no more."

To return to Dr. Cogswell. He was overworked and weary. The tody slept, and he saw, in his "mind's eye," one whom he recognized as dead, and questioned him as to his departed spirit. He woke and his vision vanished. In his somnambulism he had moved from his desk to a certain alcove.—

Voilalout! The only surprising thing about the matter is that so sensible a man as Dr. Cogswell should have related the circumstance at a large dinner party as a ghost story, and not as a dream. But he is an old man, verging on fouracore years; and it is man, verging on fourscore years; and it is written, "Your old men shall se visions; and your young men shall dream dreams."

A WORD TO THE WISE. Love hailed a little maid, cover nation a little insaid,
Romping through the meadow;
Heedless in the san she played,
Scornful in the shadow.
'Come with me,' withpered he:
'Listen, sweet, to hove and cosson.'
'By and by,' she hauthed reply—
'Love's not in season.'

Years went, years came; Light mixed with shadow; Light mixed with chadow; Love met the maid again; Dreamlog through the mendow. "Not so coy," urged the boy; "Listen now to love and reason." "By and by," the mixed reply-"Love's still in season."

Light changed to shadow;
Live met the mald again,
Waiting in the meadow.
"Pass no more, my dream is o'er;
I can listen now to reavon."
"Keep the coy," mocked the hoy—
"Love's out of season."

they cannot discuss by the day weary plati-

mingled with the little that is solid;—the of-five hunter, the gambler, the matrimonial speculator, these infect the gale;—a perni-cious excitement into which, forsoolh, to plunge wives and daughters! He opposed the admission of Oregon and Minnesota because their respective constituencies permitted alien suffrage, and besides, he did not believe that Oregon now has a population of 50,000.

Mr. Gooth made a speech denying that the people of Kansas had framed their constitution in violation of law, and said the admission of new States was a matter for the discretion of Congress. He trusted that Kansas would be admitted into the Union, and thus the strife that has so long existed in reward to her be terminated.

Mr. Quarles was opposed to the bill, and said that Kansas, having repudiated the English bill, was here without authority of law.

There was an insurance of \$11,000 on the building, and about \$2,500 on the furniture, which will probably cover all the loss. The Herald says, whilst the south-west wing was wrapped in flames an alarm was raised that a girl was in the burning building. It was soon ascertained that Miss Minne La Compte, a young lady pupil from Canada, was in the building, working desperately to save some of the furniture from the flames. A man ran up through the fire to save her, but she refused to go until the property was saved, and ended the controversy by striking the man in the face, pushing him out of the room, and fastening the dcor. As she was now in imminent danger, Sheriff Wiohtman and Deputy Sheriff Ben-Sheriff Ben, NETT ran up the blazing stairs, but she refused to let them come near her, and contin-

used throwing the furniture out of the win-dow. Sheriff Wightman at last succeeded in carrying her off to a place of safety.— Miss Lr Compte is quite a young girl, but she possesses unlimited courage. GEN. JEFFERSON DAVIS is again suffering from inflammation of the eyes. A surgical operation was performed on one last Satur-day, which it is apprehended will result in

day, which it is were the loss of both. A MOTHER-IN-LAW of Edgar A. Poe, the poet, Mrs. Maria Clemm, is in Alexandria, Va, over 70 years of age, and in the most distressing poverty.

WEDNESDAY, P. M. Whather to-day very pleasant, with light wind from the West. The steamship Milwankes serived an hour earlier han her usual time last night, and brought over up wards of one hundred tons of merchandize. The De-rolt also got in an hour shead of time to-day, with a big load of freigh; and passengers, and cleared atwith a large load of Eastward bound freight. Both of these splendid vessels have run with admirable regu arity thus far this spring, and during the past two nonths have carried an immense amount of freight to

and from this city. Our business men fully appreciate the convenience of this route, and are patronizing i 532 | Herally . 7,985 88,945 | Harrott HARROR MATTERS .- It will be seen that quite a large number of both steam and sail craft arrived and cleaed to-day. This moralny white sails were to be seen moving in every direction of the Bay, and with the movements of the D. & M. steamships, steamboats, propellers, mgs, and all descriptions of vessels, our harbor presented an exceedingly lovely appearance. This afternoon, the propeller Cuyahoga cleared to Buffalo with a full cargo of flour, having some 5,500 bbls on board, and the Wisconnia satis this evening for Ogdensburgh, taking 3,000 bbls of flour and some other freight. The schooners Republic and Three Bulls

NEWS FROM THE STRAITS.—The Detroit Tribune of last evening, in noticing the return of the steamer Sea Bird from Detour, whither she had been with work-Bird Irom Detour, whither she had been with work men and observable for the repairs of the Saut Canal states that the Sea Bird pussed over to Mackinao on Saturday, and that the wrecking buy Leviathan had arrived there to procure lighters to get of the schooner C. North, at Mcoulpin's Point. The Leviathan reported considerable heavy floating be around the Beavers, but being a powerful boat she worked her way through without much difficulty. The weather had been very good for a week or more, with same heavy rains, and it is more than probable that by this time the ice may have disappeared inficiently to afford a clear passage. Off Presque Isle, and points lower down, reusels were met on their way to the upper lakes.

The Tribune also publishes the following news on-tained of the Sea Bird:

Twenty-two men arrived at the Saut on the 17th, for Mankinac, to work on the canal, and the reports from best informed sources Indicate that the canal will be fready by the 16th of May, which is nearly or quite as soon as nevigation will be open. In Luke St. George, Mud Lake and Hay Lake, there is no current, and the ice extends nearly to the bottom. No one familiar with those localities believes they can possibly be clear under a month yet.

THE U. S. Steamer Search left Detroit, Tuesday norning, for the St. Clair Flats and vicinity, to learn the general condition of affairs in that locality.
